

Customers

The screenshot shows the OPTIQO web application interface. The left sidebar contains a menu with items: Customers, Users, Users/Groups, Notifications, Key figures, Cleaning frequencies, Control groups, Contracts, Inspections, Work orders, and Reports. The main content area is titled 'Customers' and features a table with two columns: 'Name' and 'Description'. The table contains one entry: 'Main customer' with the description 'Demo'. Above the table is a '+' button for adding new customers. In the top right corner, there are two dropdown menus: 'Main customer' and 'Optigo Admin'. An orange chat icon is located in the bottom right corner of the main content area.

Name	Description
Main customer	Demo

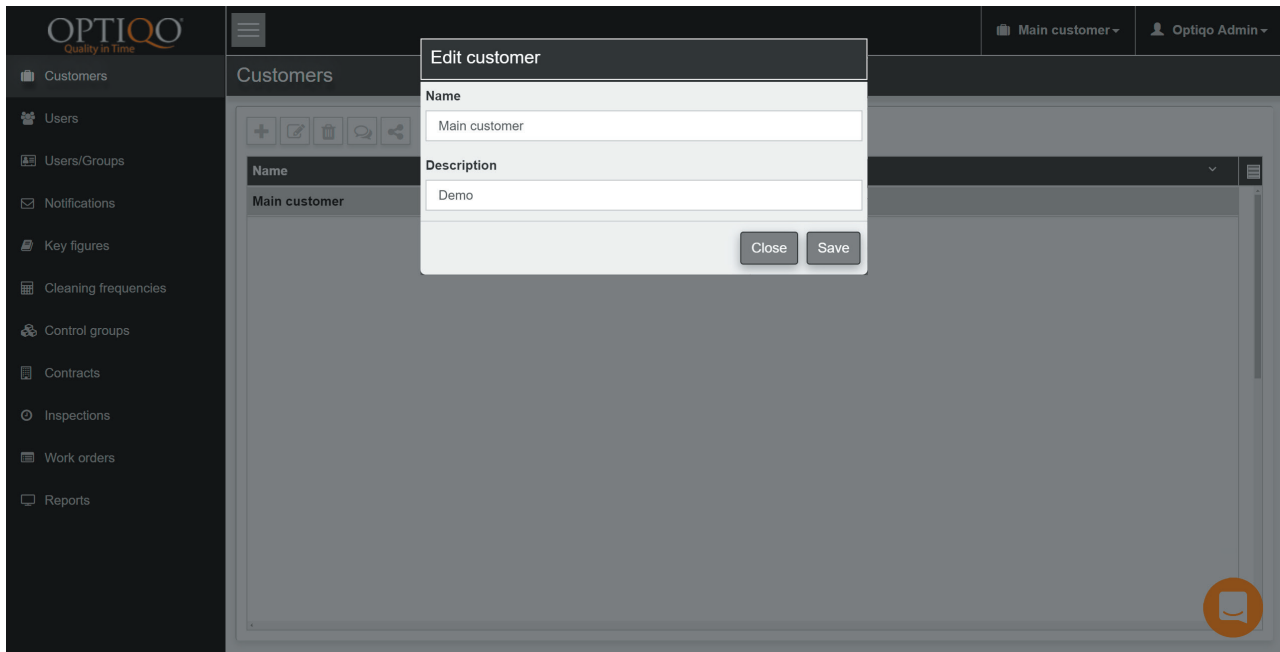

This is the first tab you'll see. Here you can add and delete customers. By pressing the "+" button you can create a new customer. On the right upper corner you select which customer to work on.

This screenshot is similar to the previous one, but the 'Main customer' entry in the table is now highlighted. Above the table, five additional action buttons have appeared: a '+' button, a pencil icon (edit), a trash can icon (delete), a speech bubble icon (comment), and a share icon. The rest of the interface, including the sidebar and top navigation, remains the same.

Name	Description
Main customer	Demo

By selecting a customer, five more options show up next to the "+" button.

The second button edits the name and description of the customer.

The third button deletes the selected customer.

The fourth button is used to preset comments in the app when reporting errors.

The fifth button is reporter access which is used to setup the error report webpage.

The last button manages how many licenses can be active on the customer.
