

Events

The screenshot shows the OPTIQO Events tab. The left sidebar contains a menu with options: Customers, Users, Users/Groups, Notifications, Key figures, Cleaning frequencies, Control groups, Contracts, Inspections, Work orders, Reports, Events, Events (external link), Events (optiqo display), and Sent notifications. The main content area is titled 'Events' and shows a list of 7 events. The events are filtered by 'Visera - Utbildning' and 'Optiqo Admin'. The events are listed in a table with columns: Date, Employee, Groups, Comment, Customer, Building, Address, Storey, and a status column. The events are: 2018-06-28 15:52:11, David Freland, Hospital, Visera - Utbildning, KV Hägern Större 16, Drottninggatan 33, 4, 0; 2018-06-28 15:50:07, David Freland, Hospital, Visera - Utbildning, KV Hägern Större 16, Drottninggatan 33, 4, 0; 2018-05-24 11:43:58, Utbildning -, Visera - Utbildning, KV Hägern Större 16, Drottninggatan 33, 4, 0; 2018-05-22 22:43:54, Utbildning -, Visera - Utbildning, KV Hägern Större 16, Drottninggatan 33, 4, 0; 2018-05-15 23:46:45, Utbildning -, Visera - Utbildning, KV Hägern Större 16, Drottninggatan 33, 4, 0; 2018-05-14 21:37:23, Utbildning -, Visera - Utbildning, KV Hägern Större 16, Drottninggatan 33, 4, 0; 2018-05-14 14:43:21, Utbildning -, Visera - Utbildning, KV Hägern Större 16, Drottninggatan 33, 4, 0. The status column shows 0 for all events. The top right of the main content area has buttons for 'Refresh', 'Reset', and 'Show filters'. The bottom right of the main content area has a 'Next refresh at: 11:10' indicator and a 'Sent notifications' button.

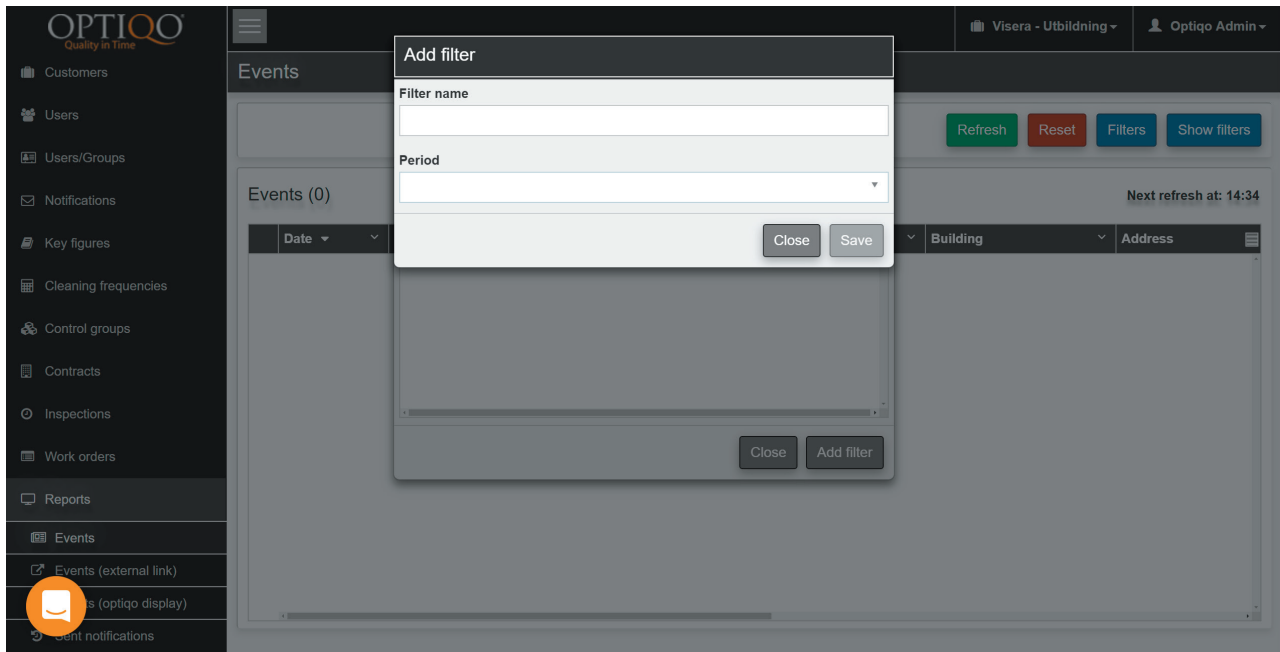

On this tab you can see all the events from Optiqo CHECK app.

Red = Not accepted. That is because someone has scanned the nfc-sticker too often in regards to the cleaning frequency.

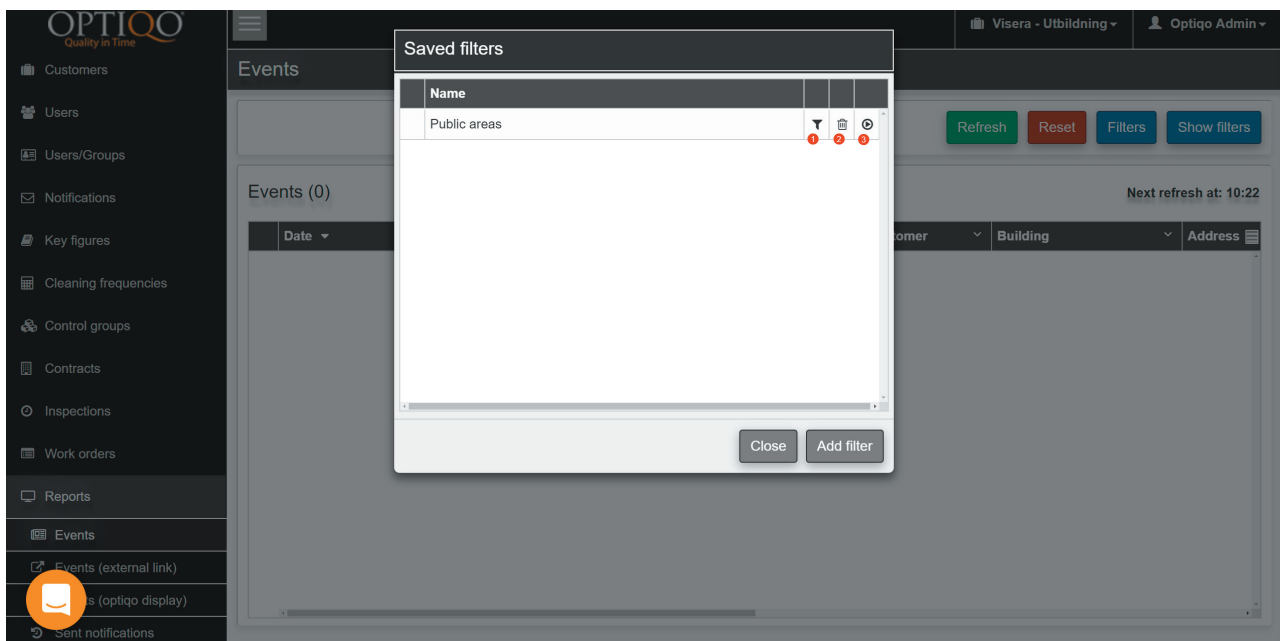

Green = Accepted

The screenshot shows the OPTIQO Events (optiqo display) tab. The left sidebar contains a menu with options: Customers, Users, Users/Groups, Notifications, Key figures, Cleaning frequencies, Control groups, Contracts, Inspections, Work orders, Reports, Events, Events (external link), Events (optiqo display), and Sent notifications. The main content area is titled 'Events (optiqo display)' and shows a filter function. The filter function has fields for: Status (Any), Group, Contract, Storey, Description, Tag ID, Quality profile, From (2018-01), To (2018-01), Employee, Building, Unit number, Unit size, Key figure, and Hygiene profile. The top right of the main content area has buttons for 'Refresh', 'Reset', and 'Hide'. The bottom right of the main content area has a 'Sent notifications' button.

Filter function.

Press the filters button and add filter to save current filters settings for future use. Choose a name and time interval to save filter.

Here you will see all saved filters.

1. Hold your mouse over this symbol to see timeperiod for saved filter.
2. Press this button to delete saved filter.
3. Press this button to apply saved filter.
